HST Transmission
Three-point Hitch**

**Power Steering
Twin HST Pedals
Easy Operation**

Mid PTO

The standard mid PTO (2,200 rpm) provides the ability to operate implements such as a mid-mount mower.

12V Power Outlet

The standard 12 volt power outlet is available for accessories.

Distinctive Hood Design

The streamlined hood design improves the visibility for the operator.

A vertical opening hood allows for easy access to the air filter, fluid service and inspection locations, fuse box and electrical components.

Illuminated Dashboard

The dashboard illuminates when the engine is started. The digital gauge package includes tachometer, fuel and temperature gauges along with a low fuel warning lamp.

Power Steering

Power steering is standard and minimizes the effort required to make tight and repetitive turns even with a full loader bucket.

Twin HST Pedals

Twin HST pedals allows easy and quick forward and reverse with smooth engagement, acceleration and deceleration. Dual pedals provide easier use which reduces operator fatigue during long hours of work and when doing repetitive tasks.

EASY TO OPERATE, EASY TO MAINTAIN, HARD TO BEAT

Left Hand Lever Controls

The HST with HI-LO range lever allows the tractor to overcome a wide range of load tasks. The rear PTO and mid PTO can be controlled separately or together with a simple in-line shifting lever. The height adjustment lever allows the operator to control the mid-mount mower grass cutting height easily.

Right Hand Lever Controls

The wet multi disk PTO clutch has a simple mechanical engaging lever. The 3 point position control easily operates the 3 point hitch by simply pushing or pulling the lever.

Foldable ROPS

The standard fold-down roll bar makes it quick and easy to maneuver in low clearance areas.

Headlights

Best in class, 55W lamps provide the operator optimal visibility.

Four Wheel Drive

Engaged by a single lever, 4WD is standard on the CS Series tractors.

Ergonomic Operator Station

The ergonomically designed work station places operator controls within easy reach. Equipped with a seat belt and operator presence switch, the CS Series focuses on operator safety.

Rear PTO and 3-Point Hitch

The rear PTO and high capacity three point hitch can accommodate a variety of implements. The bent lower link assists with easy implement installation.

Premium Diesel Engine

A 21.1 or 24.5 hp optimized combustion diesel engine has large power output yet low fuel consumption.
